Hey Alex and Katherine,

I wanted to pass along the information I have received from removal, the State, and Site Assessment based on the 2018 sampling that occurred. These sheets have the residential addresses that we would want to reach out to. There are going to be duplicated addresses between each sheet, but by putting these together, we should have the list of people that we will want to reach out to for our upcoming event. A lot of the properties are rentals, so we will want to make sure we coordinate between the owners as well.

I am still going to have the State use GIS to find wells in the area of interest, mostly to make sure any new areas haven't popped up since 2018.
